

Logistics

Challenger Institute of Technology

industry-relevant Logistics Training

This is a nationally accredited, industry-driven course that focuses on the skills required to manage logistics operations.

Diploma of Logistics

This course is for those who have completed a Certificate IV in Warehousing and Storage. The course content is designed in consultation with employers, and it combines workplace projects and assignments with classroom theory. It is only available part-time and runs for 13 months, covering areas such as:

HUMAN RESOURCE MANAGEMENT

- Develop a workplace learning environment
- Manage people performance
- Recruit and induct staff
- Facilitate work teams

FINANCIAL MANAGEMENT

- Set and achieve budgets
- Manage budgets and financial plans
- Manage inventory requirements

SAFETY MANAGEMENT

- Ensure a safe workplace

CONTRACT PROCUREMENT

- Negotiate a contract
- Manage a contract
- Manage suppliers

RESOURCE MANAGEMENT

- Develop and maintain operational procedures for transport and logistics
- Manage a supply chain
- Maintain, monitor and improve transport operations systems

Recognition of Prior Learning (RPL)

If you have gained on-the-job skills or have previous logistics experience you may be given credit towards a formal qualification through RPL. You could receive a full or part qualification.

If it's a part qualification we will explain what other training you need to achieve one in full. This means you may not have to study to receive the qualification, or that you have fewer units to complete.

Students who complete the Diploma of Logistics will receive 75 credits towards Curtin University's Graduate Certificate in Logistics and Supply Chain Program.

For more information on RPL, contact Challenger Institute's Career Development Centre on (08) 9239 8066 or email: skillsrec@challenger.wa.edu.au
